

Missing Numerical Scores!

COMPUTER SCIENCE 370 F01
D. GERMAN
FALL 2004

- It has been a great course. I loved assignment #2 since it was so practical.
- If I had any suggestions it would be to have more similar assignments.
Thank you!

- Please return Assignment 1 before Midterm
- Midterm covered too much SQL when prof didn't cover enough.

- Please post marks more frequently & provide more office hours. Faster responses to emails would be nice too.

- Excellent Instructor. Would be great if more emphasis is made on real-world application of the material as not all of us want to graduate to simply become involved in academics.

- I think Dr. German treats students fairly and with respect, he is very helpful to his students and understands how the students feel (or have trouble with) when learning the material.
- He tries to make teaching fun for his students.
- I thoroughly enjoyed his teaching and would not hesitate to take future courses with him if I have the honor.

- course material was extremely well taught.

- very good course, but lab would have been helpful in understanding the material

- I was satisfied with this course and have no detailed comments. - 22 responses

COMMENTS

Your comments about the course instructor, the course content, the laboratory, or any other aspect of the course are most welcome. These comments are **provided to the course instructor after the final grades are submitted**. The instructor may elect to provide copies of the comments to the Department Chair and/or the Dean of Engineering, and can also choose to include the comments from a course in his or her teaching dossier. In each case, all comments submitted for that course must be included. Comments are not typed before they are given to the course instructor unless you check the appropriate box below in which case the original form will be destroyed after typing.

I was satisfied with this course and have no detailed comments.

Please type my comments before they are given to the course instructor.

Sometimes the board notes got very messy,
other than that, good course!
